Hon. Secretary

Dr. Sunil P. Pawar(M.Pharm., Ph. D.)
Principal**Maintenance of water bodies and distribution system in campus:**

Water supplies are obtained from two different borewells in the PSGVPM's Campus. One is coming from eastern region and another is coming from west region of campus; both sources are collected in three different water tanks sites, one at three stored building which contain 4 tanks each of capacity one thousand Litres, second is at double stored building above library which having one tank of capacity 1500 Litres and third is at above single stored building that Analysis Lab which contains two tanks of capacity five hundreds Litre. Water supply coming from those three sources of tanks situated at three different buildings sites are distributed in the respective laboratories of different floors.

Sr. No.	Location	Particular	Number	Capacity in Litre
1	Three stored Building	Water Tank	4	1000
2	Double stored Building	Water Tank	2	500
3	Single stored Building	Water Tank	1	1500
